

January 2009

### **Jarvis plc**

York-based Jarvis plc is a support services company focused on providing the highest quality and safest products and services within the rail, plant, freight and facilities management sectors. The Group's strategy is to focus on its core rail, plant and freight businesses, dispose of unprofitable activities and reduce overhead costs whilst maintaining safety as its number one priority. The Group's safety mission is to achieve zero accidents. Teamwork and innovation are key to the Group's development and it has become renowned for in house developments such as Slinger®, Mole™ and the modular lifting beam, which are unique, highly mechanised operational solutions.

### **Jarvis Rail Ltd**

Jarvis Rail is the rail engineering arm of the business which undertakes rail enhancement projects, signalling and telecommunications, overhead line and track renewals. The business has maintained its position as a major provider of infrastructure works to the rail industry not only through the provision of plain line and switch and crossing renewal as one of Network Rail's four chosen track renewals contractors, but also through the delivery of key enhancement projects throughout the UK.

### **Fastline Ltd**

Fastline is the trading name of the Group's Plant business which provides the rail industry with a wide range of on track machines, specialist plant and small plant equipment. Through its transport business Fastline also manages an extensive fleet of commercial vehicles, many of which are purpose built, to serve the rail and other industries.

### **Fastline Freight**

Fastline Freight is the trading name of the Group's rail freight business. It successfully entered the bulk haulage sector in 2008 with the commencement of a major five year contract hauling coal for E.ON UK plc (E.ON).

### **Jarvis Accommodation Services**

Jarvis Accommodation Services carries out the Group's facilities management operations. The business comprises 24 contracts, 23 of which are long term private finance initiatives (PFI) and include 15 schools, four hospitals, the Army Foundation College at Harrogate, one District Council office and Tyne and Wear Fire Stations. The business also operates FM contracts for the British Antarctic Survey and National Express.
